General Information

The **Harold O. J. Brown Award for Student Scholarship** is a paper competition for doctoral students engaged in interdisciplinary work at the intersection of theology (generally understood), philosophy, and science. In the spirit of Harold ("Joe") Brown, the Brown Award encourages theological engagement on topics of pressing concern in the church, academy, and world. With the generous support of the Templeton Religion Trust, the award will give special consideration to work produced on the doctrine of creation in light of modern scientific research.

The Brown Award is granted to the student paper that best exemplifies the values and vision of the Henry Center, joining the highest intellectual standards with a spirit of humility, openness, and collaboration, presenting fresh approaches to old problems for the advancement of life and thought. All students enrolled in an accredited PhD/ThD program are welcome to apply. The award recipient will receive a cash prize and guaranteed publication.
